

Year 9

The following workshops will be delivered on the day:

- **Eating Disorders** – This session will explore what eating disorders are, who suffers from them, reasons why and the impact eating disorders can have.
- **Relationships and Sex education** - This session will be delivered by KNGS teaching staff from our Science Department. It will educate the students about the use of contraception and they will learn about STI's. They will also explore the emotional element involved in sex and relationships and how to deal with some of these, including consent.
- **Forced marriage** - This session will educate students about forced marriage. Students will have the opportunity to explore what forced marriage is, the causes of forced marriage and the consequences it has for girls around the world.
- **Teen abuse in relationships** – students will explore what abuse is. They will learn about key terms relating to abuse, the impact it might have on someone and consider ways to find help in situations where abuse is present.
- **Knife crime (Crime stoppers)** – this session will be delivered by a visitor from Crime Stoppers and look at the very topical issue of knife crime and safety.
